ENG

Roncaglia is a Roero MGA located in the hills of Castellinaldo d'Alba, an area particularly suited to the cultivation of black grape varieties, especially Nebbiolo. This vineyard gives us wines of great complexity and elegance. The clay-rich soil invites the production of structured wines with the presence of marked tannins.

GRAPE VARIETY: Nebbiolo

VINIFICATION: maceration without destemming for a percentage of the mass and a part in whole bunch

MATURATION: 2 years in second passage barriques and subsequent aging of 1 year in concrete tanks. Minimum 1 year in bottle

ORGANOLEPTIC CHARACTERISTICS: ruby red color with garnet reflections, complex nose with floral notes of rose, red fruits, delicate hints of cloves and licorice. In the mouth an important but well-balanced tannin, very long finish. A wine for great occasions but with the great freshness and drinkability typical of Roero, suitable for long refinements
